The Istrian County is considered one of the most suitable regions for living, and its position contributes to a pleasant Mediterranean climate. The natural beauty of this area certainly contributes to a peaceful and pleasant life. Marčana is ideal for anyone looking for a different form of vacation, far from the summer hustle and bustle and overcrowded tourist centers. Marčana is a municipality in western Croatia that covers a very large area of the coast and has been investing in its infrastructure and developing in every way over the years. Marčana is located north of Pula.

The land is located in the immediate vicinity of the center of the same settlement with a total area of only 862 m<sup>2</sup>. Land with a project on a regular-shaped plot with an exceptionally good access road. The land is only 1300 m from the sea. The aforementioned plot is surrounded by greenery and is certainly a good position for construction. A third of the utilities have been paid. We have water, electricity, a project and a building permit. The floor plan gross area of the residential family building is 232 m<sup>2</sup>, and in the existing project the planned net areas on the ground floor are: covered terrace 13.20 m<sup>2</sup>, entrance hall 9.56 m<sup>2</sup>, kitchen + living room + dining room 36.40 m<sup>2</sup>, laundry room 5.99 m<sup>2</sup>, bedroom 14.07 m<sup>2</sup>, bathroom 5.88 m<sup>2</sup>, bedroom 15.02 m<sup>2</sup>, bathroom 4.12 m<sup>2</sup>, covered terrace 11.18 m<sup>2</sup>, tavern 31.99 m<sup>2</sup>, toilet 2.50 m<sup>2</sup>, there is also a storage room of 12.14 m<sup>2</sup> and 9.14 m<sup>2</sup>, and the total net area is 171.19 m<sup>2</sup>. The land is ideally positioned with a southwest orientation, and the house garden and green area are 45% built-up, i.e. 390 m<sup>2</sup> with 3 parking spaces planned.

The municipality of Marčana has an indented coastline with a total of 36 km of coastline, starting from the Raška Bay in the north to the Budava Bay in the south. It is precisely this peace and spread along with the Mediterranean climate that certainly contributes to choosing the aforementioned destination for purchasing land in order to start construction and settle right here.
