Fažana

217,566 €
3,956 €/m^2

Fažana is a beautiful small fishing village located in the southwest of Istria, opposite the Brijuni National Park, and in the last few years it has become one of the top tourist destinations in Croatia, thus attracting a large number of visitors, and is also suitable for investments with a short payback period.

In Fažana, in an excellent location, near the center of Fažana and the first well-maintained beaches, the construction of four buildings with a total of 23 residential units will soon begin, and the construction itself will be of top quality, luxurious and unique by a proven investor. This high-quality and modern apartment will be located on the ground floor of the building,

with an area of 55.08 m^2 with one covered parking space and will consist of a hallway with a wardrobe, one bedroom, bathroom, spacious and bright living room, kitchen and dining room. The apartment will also have a part of the garden and a shared swimming pool of 85 m^2 is planned as part of the project. All buildings have anti-burglary entrance doors with high sound insulation and increased fire resistance, underfloor heating in the bathrooms with the possibility of paying extra for other rooms, French-type three-layer PVC carpentry on all external openings with blinds and mosquito nets, as well as high-quality ceramic tiles throughout the building with the option of choosing materials according to your own preferences. The heating and cooling system will also be regulated through the air conditioning unit.

The mentioned real estate represents a very interesting investment considering its quality, location, area, as well as the selected materials that will be used during construction, and it offers the future owner the opportunity to enjoy the same property or engage in tourist rental, which would certainly speed up the return of invested funds.
