3,041 €/m²

In the very south of the Istrian peninsula is a small ancient Roman town called Pula. Pula is rich in its heritage and old Roman infrastructures and legacies that give it a special atmosphere when enjoying this beautiful city, which has gradually become one of the leading tourist destinations in Croatia in the last ten years.

Right in the center of Pula, there is this spacious apartment of 74 m², located on the fourth floor of a residential building without an elevator. This functional apartment consists of two bedrooms, a living room, a kitchen, a bathroom, a separate toilet and a hallway, which offers exceptional practicality and comfort. A special advantage is the two terraces, one of which is a

closed terrace, which provides additional space for relaxation as well as the possibility of redecorating to your own taste. The entire building is equipped with wooden joinery, while the floors are covered with parquet and ceramics. The apartment was renovated in 2014, new electricity and water installations were installed, and the heating system is regulated by central gas and there is also the possibility of heating with wood since there is an existing chimney. Along with the apartment, we also get a four m² shed for use.

The apartment is very comfortable and bright, with a well-designed layout that makes the most of every square meter of space. The location in the very center of Pula makes it the perfect choice for those who want to be close to all the necessary amenities, such as shops, schools, cafes, restaurants and historical sites. This is an ideal apartment for family life, but also a great opportunity for investment due to its attractive location and spacious layout.
