VILLA WITH BEAUTIFUL VIEW OF NATURE AND THE SEA

Sveti Lovreč

934,000 €
3,113 €/m^2

What makes Poreč so interesting is its rich cultural heritage, which bears witness to its turbulent history. The peninsula on which the old town of Poreč developed was first settled by the Illyrian tribe of Histri. However, it was given its current form by the Romans, who occupied it more than two millennia ago and named it Parentium. The historic core of the city still preserves its ancient form, and the two main streets still bear the same names as two thousand years ago, Cardo and Decumanu. The surrounding settlements of the city of Poreč offer the much-sought-after peace, surrounded by greenery, and breathtaking views.

Not far from the city of Poreč, an imposing villa with a view of nature and the sea is for sale. It is located in a charming settlement with a panoramic view of the sea, the Alps and the surrounding area, surrounded by greenery, vineyards, olive groves, family houses and holiday homes, and was built to the highest standards for residential construction. The property's attractive exterior is perfectly integrated into the surrounding landscape, while the equally harmonious interior and harmoniously planned rooms are used. A large number of glass walls ensure maximum penetration of external light, which emphasizes the space and at the same time connects the interior with the exterior. The villa is designed as one residential unit spanning two floors.

On the ground floor there is an open-concept living area that unites a living room with a two-sided fireplace, a dining room and a kitchen with exits to a covered terrace, a bedroom with its own bathroom and exit to a covered terrace, a guest toilet and a technical room. An internal staircase leads to the first floor, where there are three bedrooms with their own bathrooms and two covered terraces. Cooling and heating are provided by an underfloor heating system and Mitsubishi air conditioning units. Top-quality materials and appliances were used in the construction of this beautiful villa. The yard is landscaped and horticulturally decorated and fenced. The parking lot is private and also fenced. The video surveillance is in high resolution and an alarm system has been installed. Complete harmony is provided by a covered summer kitchen with toilet and storage and an overflow pool of 60 m^2 with a sunbathing area next to which is elegantly integrated a jacuzzi with an open fireplace from where a view of the greenery and the sea extends, creating a perfect place to relax. The villa offers a number of amenities such as electric shutters and blinds, underfloor heating, air conditioning in all rooms, a gallery living room with a hanging fireplace, and high-quality Italian ceramics. All this comes included in the fully equipped villa.
