

# ONE-BEDROOM APARTMENT WITH GARDEN IN A QUALITY NEW BUILDING

 Banjole, Medulin

 **210,750 €**  
4,053 €/m<sup>2</sup>

The municipality of Medulin is located in the very south of the Istrian Peninsula on the coast. Medulin, once a fishing village, is today a modern tourist center that has emerged as one of the most desirable tourist destinations in Croatia in the last ten years, as evidenced by the largest number of overnight stays in recent years.

It is in Banjole, in a very quiet location, that the aforementioned modern and high-quality new construction of a small residential building by a proven investor with a total of 8 residential units is located. The aforementioned apartment, measuring 51.87 m<sup>2</sup>, is located on the ground floor and consists of an entrance hall equipped with a burglar-proof entrance door, one bright

and comfortable bedroom with access to a terrace and garden, a spacious living room connected to an open-space concept kitchen and access to a terrace and garden with an area of 4,59 m<sup>2</sup>, as well as a bathroom equipped with a Geberit built-in cistern, a walk-in shower, installed installations for a washing machine, an Ariston boiler, and a ventilation system. The floors throughout the apartment are covered with high-quality ceramics, and the bedroom has Sherborne wood-imitation ceramics. The heating and cooling system is regulated by two Mitsubishi air conditioning units, one in the bedroom and one in the living room, and electric underfloor heating has also been implemented throughout the building with separate Wi-Fi thermostats in each room. PVC joinery with triple-glazed anthracite glass and aluminum roller shutters with electric lifts have been installed, and an anthracite-colored aluminum garden fence will also be installed. The building is equipped with an 8 cm thick thermal facade on the ground floor, with 2 cm thick Travertino classico stone also installed, which certainly contributes to excellent thermal and sound insulation. The apartment has one uncovered parking space as well as one shared toilet located in the hallway of the building, which will be co-owned by all co-tenants, and the work is scheduled to be completed by the end of 2025.

The mentioned property represents a very interesting opportunity considering its location, the proximity to the sea of 200 m, the equipment as well as the quality materials that were used during construction, thus providing the future owner with an investment opportunity, whether in terms of enjoying the same or engaging in tourist rental, which would certainly accelerate the return of the invested funds.
