In the very south of the Istrian peninsula is a small ancient Roman town called Pula. Pula is rich in its heritage and old Roman infrastructures and legacies that give it a special atmosphere when enjoying this beautiful city, which has gradually become one of the leading tourist destinations in Croatia in the last ten years.

This beautiful renovated duplex apartment of 83 m² is located in a quieter part of the city of Pula, in Šijan, on the second floor of a residential building. The first floor of the apartment is very bright and spacious due to its high ceilings and contains a bedroom, bathroom, living area with dining area and kitchen and access to a terrace covered in granite with a view of the

greenery and the city. The space under the stairs is used partly for a built-in wardrobe and partly as storage space, and the stairs are concreted and covered with stone. On the second floor there are two bedrooms and another bathroom. Each room has its own air conditioning unit and the heating and cooling system is regulated via them and via underfloor heating in the living area. The apartment's joinery is PVC double-glazed with mosquito nets and roller shutters. A great advantage of this property are the accompanying facilities such as a post office, bank, school, kindergarten, park, playground, market, beach, city pool, shopping center, promenade, etc.

The apartment is a very comfortable property due to its beautiful location, number of bedrooms and proximity to all accompanying facilities and offers the future owner a very interesting investment with a guaranteed long-term return on investment or, in the case of use for personal purposes, a very comfortable apartment in a very attractive residential location.
